

Press Release – SELECT CertainTeed ShingleMaster Status Achieved January 2012 – Residential/Commercial Asphalt Roofing

[Home Visions Inc.](#) is proud to announce certification by CertainTeed as a SELECT ShingleMaster for [roofing](#) installations allowing the company to offer exclusive warranty coverage. HVI has partnered with CertainTeed for eight years and the relationship has driven continuing education and manufacturer training for all departments within the company. There are several requirements to obtain SELECT status including production and installation team training, consistent use of responsible business practices, proper insurance coverage and the company has been in business at least five years.

This accreditation will give all of our current and potential customers the confidence that they are dealing with top notch roofing installers and insures that all HVI installers and employees are up to date on the latest details for CertainTeed roofing systems and products.

Continuing education is very important to Home Visions Inc. and along with similar efforts in other branches of the company HVI continues learning in order to stay up to date with state of the art installations.

Thank you to CertainTeed and all HVI employees who put the hard work in through the years to make this possible.
